FOR PRESIDENT:

WM. JENNINGS BRYAN

On a Platform to fit the Candidate's Unimpaired Integrity and Democracy.

As a non-busting trust-buster, Teddy is a wonder.

The acquiring, through monopoly, of business "good-will," and the making an unlimited asset of it for capitalization purposes, are peculiar to "high finance."

MR. BRYAN recently delivered a lecture in New York city, within hailing distance of Wall Street, based on the text, "Thou shalt not steal." This may be said to be bearding the lion in his den.

AN Indian in Oklahoma died a week or so ago, aged 106 years. He, unfortunately, was a "confirmed drunkard," and so failed to attain mature age. If only Prohibition could have been adopted in Oklahoma some hundred years sooner!

SOMEHOW the people don't seem to be affected by the wailing of the anti-Bryan "safe and sane" sheets, but go right on instructing their delegates to vote for the Nebraskan, "first, last, and all the time." The conditions are both alarming and pathetic, don't they?

THE Denver convention hall will seat 12,500 Democrats, and it is hoped that they will have intelligence enough to sit down—on the party Jonah.—*Charleston News-Courier.*

The deuce! Grover is in retirement. Why do these villains still pursue him?

LESLIE M. SHAW, late Secretary of the Treasury, will not be called to Southeast Missouri this year to make high tariff speeches. This is not an official statement, but it is undoubtedly correct. We haven't heard of the Republicans in St. Francis county clamoring for his services this year.

BILL STONE, while Governor, "stood up for Missouri" against Federal encroachment, endeavoring himself to every Democrat in the State, and the incident is not forgotten. His action was and is of more good to the people than all the mollycoddling Righteousness now exploiting. He does not set himself up as a shining light to the Pharisaic pure and undefiled, but he is a true Democrat as well as a man of integrity, firmness, and ability.

THE Republican party has furnished the men to guide this nation into becoming the mecca of the down-trodden and oppressed of all the earth and it can be depended upon to guide it safely through the financial and industrial storms that have recently overtaken not only this country, but more disastrously almost every other country on the face of the earth.—*Farmington News.*

But what about the Great American System? Why should this country experience any of the hardships known in other lands? In 1906 when Secretary Shaw was in Farmington he said that as long as there was a Republican President there would be prosperity. What Shaw said then every Republican paper in the land has been saying for the past ten years. They have all lied themselves in to a hole from which they find it difficult to get out.

Now that we are on the eve of another political campaign in Missouri the voters should recall the disclosures of the Cardwell investigation, which brought to light the "confidential affairs" of the Democratic party, abounding in "dig-nified sums."—*Potosi Journal.*

Then, Mr. Voter, recall the incident of the St. Louis sub-treasury. Just \$61,500 stolen, nobody punished therefor, nor anybody going to be punished therefor. Atkins, the man under whom the defalcation occurred, has been re-appointed. The Republican United States Senator from Missouri and a Republican Congressman have introduced bills into Congress relieving Atkins and his bond from liability for the theft. Has there been a Republican newspaper in Southeast Missouri with sufficient honesty and fairness to criticize the President for re-appointing Atkins, or to condemn Warner and Bartholdt for seeking to saddle

the loss on the government? For gall illimitable these Republican sheets cannot be excelled.

SOME time ago one of my Republican contemporaries asked, if trusts and monopolies are the creatures of the Protective Tariff, how did I account for the existence of that greatest and most tyrannical of all monopolies, the Standard Oil Company? He claimed its product was on the free list, and he seemed to have a cinch on the question. Will he kindly read this extract from Mr. Bryan's speech at Carnegie Hall, New York? It will enlighten him:

"I believe in the immediate revision of the tariff; downwards not upwards, and I would commence by putting upon the free list the articles that come into direct competition with the articles controlled by the trusts. (Great applause) I would give these men a certain length of time—not too long, (laughter) —say a few months, and I would say to them: 'If you don't stop conspiring behind this tariff wall we will take the wall away and make you compete with the world.' I would then proceed to make material reductions in the necessities of life, and I would go through the tariff and I would pick out the fraudulent paragraphs that were put in by stealth for the purpose of securing advantages that even the framers of the law did not understand, and one of them would be the duty of 150 per cent. that was put in for the protection of oil after it had been put upon the free list. If you read the statute, you will find it says that if oil comes from a country that puts a tariff on oil, then we shall put a similar tariff on oil from that country, and it happens that our only competitor in oil is Russia; she puts a tariff on oil, and therefore while on its face we have a free trade in oil, yet, really we have not got it at all."

THE quotation here reproduced was given in the REGISTER several weeks ago. The comments upon it are taken from the *Commoner*:

"The Lincoln (Neb.) Journal (Rep.) says: 'Cleveland became president the second time on the eve of a panic. The Republicans ascribed the panic to the prospect of a Democratic administration, and that explanation was accepted to the extent of helping materially to keep the Democrats in disrepute for fifteen years. Now comes a panic in a Republican administration and with only a remote prospect of a Democratic triumph in the next dozen years. Up spring the exultant Democrats to prove out of the mouths of the Republican spell-binders of the last fifteen years that the Republican party caused the panic. But what do they find? A public quietly hearing and accepting the evidence that the Republican party had as much to do with the panic as the man in the moon and no more, that panics are psycho-logical and international, that all but one of our panics started in Europe, that they have occurred under all parties, all tariffs, all money and banking systems. Their only comfort is the admission that the Democratic party, except as it may have caused some exaggeration of the trouble by its money question was after all not the cause of panic of 1893 which really began with the Baring failure in London in 1890.'"

This is a very frank admission. Republican organs and orators falsely charged a Democratic administration with a panic that began under a Republican administration and under Republican legislation, and this accusation "helped materially to keep the Democrats in disrepute for fifteen years." It will occur to the ordinary man that something in the way of an apology is due from Republican editors for this accusation now admitted to be thoroughly false.

This Republican paper admits that the so-called panic of 1893 really began in 1890. That is quite true. It really began, so far as surface indications were concerned, November 11, 1890, which was a little more than thirty days after the McKinley tariff bill became a law.

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid the disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says, "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. I used it for some time and it cured me. Now my throat and lungs are sound and well." For sale by the Arcadia Valley Drug Store.

For Sale or Trade—Surrey, two buggies and a phaeton. Will exchange for horse and pay balance in cash.

FOR STATE AUDITOR.

HON. JOHN O. LONG.

At the earnest solicitation of his many friends throughout the State, John O. Long of Potosi, has consented to enter the race for State Auditor subject to the decision of the voters at the Democratic State Primary, to be held Tuesday, August 4, 1908.

Mr. Long is a representative of one of the oldest families in Southeast Missouri. His grandfather coming to this locality in 1811. He is of Democratic antecedents as far back as the history of the Long family has been preserved. His father was the late Alfred Long of Cadet, who was a member of Company C, Third Cavalry of former Governor John S. Marmaduke's Division.

Mr. Long was born in Missouri in 1853 and has from childhood been a resident of this County and identified with its interests. He was reared on a farm and all his life has been interested in farming and stock raising. Since becoming of age he has been a militant member of the Democratic Party. He was a member of the State Committee from 1900 to 1902; for the past eight years he has been a member of the Senatorial Committee of this District and for two years was a member of the Congressional Committee in this district. While serving upon the various district and State Committees he was enabled to gain a thorough acquaintance with the party's needs in this state and familiarize himself with conditions that now prevail. In local politics he was very successful. In 1884 he was elected Sheriff and Collector of Washington County. In 1898 he was elected County Clerk of Washington County and re-elected in 1902, and again in 1906. In his last race, not withstanding the fact that this county was Republican, he beat his competitor, one of the strongest men in the county, by an increased majority, over the two previous elections. Mr. Long has been his own County Clerk from the beginning, and the condition of his office speaks as to his competency. If elected Mr. Long will serve the people of the state as satisfactorily and effectively as he has the people of Washington County. He is one of the most energetic campaigners we have ever known and his vim and energy will be felt in the coming fight should he be nominated. When the primary is over and the votes counted if Mr. Long does not lead the poll his competitors will know they have had a fight. We feel confident that he will be the next nominee for State Auditor.—*Potosi Independent.*

Lone Cedar Items.

February brought bad weather and every body will be glad to see it leave.

THAT'S BOTH OF US.

They Speak Very Highly of Chamberlain's Cough Remedy in Saskatchewan.

In a recent letter Mr. J. H. Ellis, of Ellisboro, Sask., says: "Many have spoken very highly of Chamberlain's Cough Remedy. Mr. Geo. Page, of this place, bought a bottle of it for himself and found it did him good. He also found it most useful when one of his children took the cough. He had noticed that it was recommended for that disease, but was surprised and pleased with the quick relief which it afforded, and especially so as it saved him a ten mile drive for the doctor. For sale by the Arcadia Valley Drug Co."

The March Woman's Home Companion.

The March number of the Woman's Home Companion again captures public notice with its charming cover picture of a Japanese girl—one of the daintiest magazine covers that has appeared in years. This is the Spring Fashion Number and for it Grace Margaret Gould, the fashion editor, has prepared many delightful pages, illustrating in detail the advance spring styles.

Dr. Edward Everett Hale contributes a charming talk on "Home Reading." Kellogg Durand, the author of "The Red Reign," has an article of absorbing interest, entitled "Women of the Revolt," containing some heart-rending anecdotes of the part that certain brave women have played in the Russian Revolution.

Dr. Woods Hutchinson writes on "The Mental Growth of Babies," a refreshingly bright article, and Irving Bacheller, Francis Lynde, Elizabeth Stuart Phelps and many others contribute fiction. The usual departments, presided over by Margaret E. Sangster, Fannie Meritt Farmer, Anna Steese Richardson and others, are helpful and attractive. The whole number is beautifully illustrated.
